## Perception Poll of Vote by Mail, In-Person Voting, etc

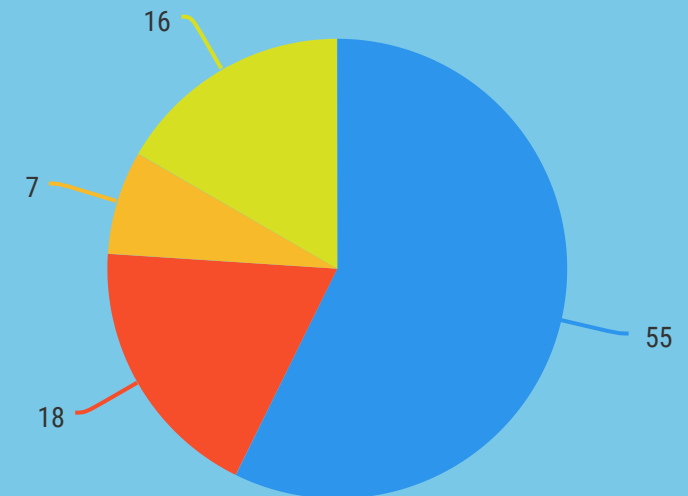

51%

...Agree requiring a witness to sign their ballot is an invasion of privacy

### Conducted by Dr Silas Lee & Associates

1. A combined 62% have heard a little (45%) or nothing at all about legislation to allow vote by mail. Thirty-seven percent (37%) have heard a lot about the legislation
2. There is solid support to allow voters to cast their ballot by mail. Strongly support (55%), somewhat support (18%), probably not support (7%), definitely not support 16%
3. Nearly half (47%) of the voters do not anticipate voter fraud will increase, compared to 42% who expect fraud increasing
4. Having the option to vote by mail for president does not motivate 59% of the respondents
5. Respondents strongly support (52%) allowing any voter to vote by mail, but strongly oppose (38%) conducting all elections by mail
6. More than 7 of 10 (75%) voters strongly support allowing residents with compromised health conditions to vote by mail
7. Allowing no excuse absentee voting with the ability to go the polls is strongly (46%)/somewhat supported (14%)
8. Voting participation is expected to increase (62%) with vote by mail
9. A combined 51% strongly/somewhat agree requiring a witness to sign their ballot is an invasion of privacy

### VOTE BY MAIL

75%

Vote by Mail, Those with Compromised Health Conditions
